Product / Process Change Notification (PCN)

909 N Sepulveda Blvd., Suite 230, El Segundo, CA 90245
Notification Date: March 6, 2017

PCN Number: PCN170304
PCN Title: Manufacturing Site Change - Assembly

Product Identification:
The following released to sales part numbers will be impacted by this change:
See Appendix I

Description of Change:
EPC announces the qualification of a second ChipBond facility for solder bump assembly. The ChipBond Kuang Fu (KF) plant is approved as an assembly site for the released to sales part numbers in Appendix I. There will be no change in manufacturing technology or to the package dimensions. This change does not affect the form, fit, function of the product as defined in the datasheet.

ChipBond’s Li-Hsin (LH) plant is a long-time qualified assembly site for several EPC products and packages. Successful qualification testing of the Kuang Fu (KF) site was performed to ensure product quality and reliability requirements are met or exceeded.

The new Kuang Fu bump plant is comparable to the existing Li-Hsin bump plant
- With the exception of added photo stepper exposure tool,
  - Same machines used in LS plant are now in KF plant. Some were moved from LH to KF.
  - Same machine vendor
  - Same machine models
  - Same machine method
  - No change in process
  - No change in chemicals or chemical vendors
  - No change in control plans
  - No change in quality system
  - No change in FMEA
- Photo exposure tool had added stepper capability in addition to original aligner. Stepper has improved alignment capability.
- No change to any device form, fit or function

ChipBond’s KF plant will begin production of EPC products on or after April 1 2017. During the transition period customers may receive shipments from either assembly site.
